ABHYODAY KUMAR

FULL STACK DEVELOPER

Bengaluru | Abhyodaysingh993@gmail.com | LinkedIn | 7903588617|Github

SUMMARY

Undergraduate Computer Science student at Jain University (2024–2028), specializing in Web Development and Full Stack projects. Experienced in building responsive websites, backend APIs, and real-time applications. Strong foundation in modern frameworks and teamwork. Seeking Web Development / Full Stack internship opportunities.

PROFESSIONAL SKILLS

Design Understanding
Team Collaboration
Problem Solving
Prompt engineering

TECHNICAL SKILLS

React.js, Next.js, Node.js, Python, Firebase, MongoDB, REST APIs, Git, GitHub, Numpy, Scikit-learn,flask

PROJECTS

Jan 2025 – Feb2025

JavaScript,

Flood Detector *(Hackathon Project)*

- Designed an AI-based flood prediction and alert system using real-time data from APIs and sensors
- Integrated mapping and alert features using open-source tools and Python
- Created a user-friendly interface for live updates and warnings in vulnerable regions

Mar 2024 - Apr 2025

EduVerse – Rural Education Platform
(Hackathon Project)

- Developed an app to deliver educational content in rural areas with **offline access**
- Built features for downloading lectures and interactive modules using Flutter and Firebase
- Targeted hybrid learning: online where possible, offline where internet was limited
- Addressed issues of digital divide and content delivery in under-connected regions

Legalyze App

Developed an AI-powered legal document analysis platform that allows users to upload documents for Automatic summarization and red-flag analysis. The system also supports natural language querying for legal understanding.

Gullak– Financial Education Platform

Created a financial learning app designed for children aged 4–18 years to teach financial literacy through games, quizzes, and interactive lessons.

EXPERIENCE

Mobile Application Developer Intern
TAPnex | 2025 – Present | India

- Built mobile app/website with role-based login and NFC payment integration.
- Used Firebase for user authentication and database storage
- Integrated UPI payments and streamlined volunteer workflows

Campus Ambassador
E-Cell, IIT Bombay | 2024 – Present | Remote

- Proming E-Cell events in our college

EDUCATION

Aug 2024 - Jul 2028

Bachelor of Technology in Computer Science(2024-2028)

- **1st Semester CGPA:** 9.05 | **2nd Semester CGPA:** 9.00 | **Average CGPA:** 9.025
- Completed foundational courses in Python Programming, Data Structures, and OOPS
- Participated in multiple national-level **Hackathons** and technical **Workshops**.

Aug 2024 - Present

ADDITIONAL INFORMATION

Languages: English, Hindi.

Certifications & Awards

- **Engineering & Technology Job Simulation** – Deloitte (Forage)
- **Software Engineering Job Simulation** – J.P. Morgan Chase & Co. (Forage)
- **Generative AI: Transforming Your Organization** – Google Cloud via Coursera
- **Winner – TagX**, Jain University
- **Top 50 Finalist** – BJS IT Hackathon
- **Secured 18th position** in Tutedude Web Dev Hackathon, PAN India.
- **Reached Level 3** – IIIT Lucknow Hackathon
